PROFILE

Experienced BIS System Development Specialist with 8 years of hands-on expertise in system / software development, front-end UI design, complex SQL scripting, and business intelligence reporting.

Skilled in translating business needs into scalable technical solutions. Passionate about clean code, data-driven design, and delivering real-world value through tech.

WORK EXPERIENCE

Samancor Chrome LTD 2017 - PRESENT

BIS System Developer Specialist

- Design and develop full-stack business systems across production, logistics, labs, procurement, document management, HR, and SHEQ.
- Automate, create, and enhance reports to drive informed decision-making and advanced data analytics.
- Develop and optimize SQL stored procedures for maximum performance.
- Troubleshoot and resolve system and reporting issues.
- Provide 24/7 standby support for furnace, mining, and weighbridge operations, including historian process data and weighbridge applications.
- Lead, mentor, and manage junior developers to accelerate their growth and productivity.
- Achievements:**
- ★ Youngest D-Level Specialist in the developer department's history.
- 🏆 Recipient of the Chrome Agile Innovation Award for delivering high-impact, process-improving solutions.
- 🏆 Kudo's award from management for problem solving and collaboration.

ICA Office National / Rabbit IT 2014-2017

IT Support Technician

- Delivered onsite technical support to businesses and households, resolving computer, network, internet, printing, and email issues.
- Repaired and maintained hardware including office PCs, printers, and wireless internet equipment.
- Installed and configured networks, routers, CCTV cameras, and DVR systems.
- Performed software installations, updates, and regular data backups for key clients.
- Assisted walk-in customers with IT queries, sales, and computer/laptop repairs.
- Managed business tasks including quotations, invoices, and month-end cash-ups.
